

Warsaw, 20.07.2018

LETTER OF REFERENCE

This letter is to confirm that PM Experts Sp. Z O.O. delivered a two-day workshop in March 2018 titled "Agile Project Management" for members of top management at the Servier production facility in Warsaw.

The goal of the workshop was to familiarize participants with agile project management roles and responsibilities, as well as to describe agile business activities and agile project planning and execution techniques. The interactive workshop was followed by a moderated discussion about how to apply agile project management to the current production environment at Servier. The entire session was conducted professionally and in an engaging manner by the consultant – Adam Figurski – who demonstrated a high level of training ability and subject area knowledge.

We were very happy with the results of the workshop and recommend PM Experts Sp. Z O.O. as a reliable training partner.
